## GRAND TRUNK AGREEMENT RATIFIED ONCE AGAIN

Council Held Two Meetings in One Night.—Arthur G. Harrison Mentioned as Possible Successor to Commissioner Hargreaves.—Alderman Picard Temporarily Holds Office.

For the second time the Grand Trunk Pacific agreement has been passed by the council and to make it valid now lacks only the signatures of the Mayor and the secretary-treasurer. It will be signed to-day and before night will be speeding eastward chasing up the former, but ill-fathered document, which was discovered to have been illegal.

The ratification of the agreement last night, like its notification on Tuesday, was a matter of technicality. The council took advantage of a technicality and held two meetings without ever rising from their seats.

When the council on Tuesday evening rose at close to midnight it adjourned to meet again on Friday evening. They met at the adjourned Tuesday meeting, deliberated for one hour, adjourned again and immediately proceeded to meet in extra session. This was made necessary on account of the fact that the council could not pass three readings of the by-law at one meeting, and two having been already passed at the Tuesday meeting the third had to be passed at a properly constituted special meeting or go over until Tuesday evening next for the regular meeting. There should be no question about the legality of last night's special meeting. When the aldermen took their seats one or two of them were found toying with the following interesting epistle:

City of Edmonton.  
Mayor's Office.

Edmonton, Alta. Aug. 22, 1906.  
Dear Sir:—At the request of the majority of the aldermen a special meeting of the Council is called for Friday evening next, the 24th inst., at 9 o'clock to consider the third reading and final passing of the By-law read twice on Tuesday, the 21st inst. to authorize the execution of the agreement between the City and the Grand Trunk Pacific Railway Co.

You are requested to attend.

Yours truly,  
CHARLES MAY, Mayor.

The missive was sufficiently plain to answer the technical requirements raised by Alderman Bellamy.

The agreement was not ratified, however, until Alderman Griesbach had explained very fully the circumstances surrounding the making of it and Alderman Bellamy had illustrated his views as to the wrongness of signing any such agreement.

He and Alderman Picard alone voted against it.

The agreement as it now stands lacks only the passage by the ratifying of a money order authorizing the raising of \$60,000 to purchase the right of way from the eastern limits to First street.

The meeting last night was attended by the entire council except Alderman Manson.

The first business taken up at the adjourned meeting was to go over the minutes of the illegal meeting and ratify them, all except the G. T. agreement, which was duly done and placed on the records in proper and legal form.

One item of the minutes brought out an argument from Alderman Bellamy. It was with regard to the expenses of the delegation composed of the Mayor and the Attorney-General to Ottawa in connection with the G. T. P. agreement.

Alderman Bellamy thought that the action was not regular as the Council has not received a report of the delegation.

The Mayor said there certainly was

no report, and that he opposed the motion. Coming in, furthermore, that if the Council waited until he asked for expenses they would wait a long time. He did not ask for expenses and did not want them. He was willing to pay his own expenses. The other delegate was not the Attorney-General, as stated, but Mr. J. H. Morris, and that he had not asked expenses.

Ald. Smith said that there were results, which were better than a report. He moved that the account be passed. The Mayor declared Alderman Smith out of order.

Alderman Mays appealed to the Council against the decision of the Mayor and by vote of the Council the Mayor was over-ruled and the account was passed, forcing on the Mayor against his own veto the expenses of his trip to Ottawa in the city's interest.

Then came a motion in the alleged meeting minutes—passing a vote of thanks for the work accomplished on this last Ottawa trip.

Alderman Bellamy again protested, stating that there was a question before the Council for which to pass a vote of thanks as there had been no report.

Alderman Calhoun adopted the same argument as Alderman Smith, before it, which was a very tangible result and something for which the Council could well pass a vote of thanks. He moved the adoption of the minute and Alderman Mays seconded.

Alderman Picard said that he was favorable to a vote of thanks to the delegates, but not to the agreement. The motion was put and the vote of thanks passed. Alderman Bellamy voted nay, but when asked if he wanted the vote recorded, said that he did not think it necessary. He would have something to record, he said, later on.

Alderman Griesbach asked the privilege to make a motion in advance with regard to the employment of a commissioner to fill the place vacated by the resignation of Mr. J. H. Hargreaves. He stated that he would be in Calgary on the date of the next council meeting and therefore he would not be present to make the motion. He had in mind Arthur G. Harrison, C.E., now in the Dominion Lands Office, and asked that his motion be taken to be presented at the next meeting.

The Mayor consented and Alderman Griesbach's motion was taken down, to be presented at Tuesday evening's meeting.

Secretary Kinnaird pointed out that Mr. Hargreaves, for personal reasons, was anxious to get away at once and as it was necessary that a commissioner should be present at the Court of Revision, which commenced business on Monday evening, an appointment of a substitute to temporarily fill the position should be made.

On motion of Alderman Bellamy, Alderman Picard was named for the position and will act as commissioner until such time as a commissioner is appointed.

The by-law to raise a temporary loan of \$50,000 in the Imperial Bank to meet current expenses was passed. The name of John W. Morris was mentioned as a temporary commissioner, but it was pointed out that the precedent had been established of appointing a member of the council to fill the place and this precedent was adhered to.

Having reached the hour of 9.30 the Mayor pointed out that it was time

## REBEL LEADER CHANGED PLANS

Fooled the Government Troops and Is Now Marching on Guine.

(Special to the Bulletin)  
Havana, Aug. 24.—The insurgent army under Pino Guerra is moving on Guine, twenty-nine miles southward of Pinar Del Rio. After declaring he would move on Pinar Del Rio today and follow the capture of that place by a march on Havall, the insurgent leader changed his plans. The government has concentrated all possible troops in Pinar Del Rio for its defence.

to adjourn the meeting and call the special meeting; and, presto, change, by the raising of aldermanic hands they were immediately transferred from the former stage into the latter. The agreement came up at once.

Ald. Griesbach moved the third reading, seconded by Ald. Mays. In support of the agreement he said that it was one which would not be found satisfactory to everyone, but every such agreement was in the nature of a compromise and this was not different in that respect. But it must be remembered that when the delegation started out to get an agreement they were facing a serious condition of affairs. When they came in contact with the powers that be, it was found that the agreement which they would have to make was on the basis of the McDougall-Short agreement, which was the only agreement in force. There were clauses which they did not like but they were there to get an agreement and this was the best agreement they could get under the circumstances.

Exception was taken to the fact that the G. T. P. had the exclusive right to build spur south of their track, and this was cited as a monopoly clause by some; but this was offset by the fact that the C. N. R. had the same privilege north of their track. No railway would consent to spurs being carried across their main line, and this was the only settlement possible. Furthermore the G. T. P. had agreed to build spur tracks for the use of any good road and any business concern which requires them. When the city grew to be a large business centre this would no doubt be found to have been a judicious arrangement.

Regarding the granting of the use of Mackenzie avenue, that was contained in the McDougall-Short agreement and the delegation could not get away from it.

As for the right of way granted south of the C. N. R., between the city limits and First street, the original agreement proposed to give the G. T. P. running rights over the C. N. R. right of way. It was found that this could not be done. Consequently its share of this part of the McDougall-Short agreement by finding them another right of way. This the city was in a position to give the company at a cost of \$60,000. By so doing the city acquired further property which the city should be able eventually to realize nearly the entire amount at the cost of the right of way.

He had hoped that the city would not have had to bonus a railway already largely bonused by the government, but the city wanted the shops and it had got the shops on the conditions. He said he would not undertake to influence any ratifiers to vote for the agreement. He believed that it was the best agreement that could be gotten and he endorsed it. The ratifiers could do as they pleased.

Alderman Bellamy reiterated his arguments of last Monday night. He objected to the agreement, first on the grounds that the city had no assurance except a forfeit of the \$100,000 (which the city was giving them) that the shops would be located here.

Next he objected to granting the use of the 110 feet on Mackenzie avenue, thereby shutting off the C. N. R. from the use of that street.

The clause giving the G. T. P. exclusive switching rights to the south of their track, he characterized as a drastic monopoly. It was, he said, a case of shutting off the pioneer railroad from doing business with a large part of the business section of the city.

To clause 7, which gave the company free use of streets north and west of Sixteenth street in reaching the city limits, he believed that this was a direct violation of the rights of the property holders in that section of the city and he thought there was

## MUST RUSH THE RAILWAY

British Paper Urges Military Uses of Grand Trunk Pacific.

(Special to the Bulletin)  
London, Aug. 24.—Referring to Earl Grey saying that the first duty of Canada to the empire is that she herself should be strong, the Globe says the railway scheme for the crossing of the Dominion cannot be postponed whatever may come, as there are signs that the Pacific ocean will be the scene of the next great international conflict and it depends on our ability to concentrate the whole force of the empire in these seas at a critical moment whether we will emerge victorious or not.

a grave doubt as to whether the city could condemn and close streets in such a way.

Alderman Bellamy also objected strenuously to the clause which provided that the city should pay the expense of the repatriation of grades for 15 years. City Solicitor Beck pointed out that the agreement which the G. T. P. had sent for the city's signature contained a clause requiring the city to pay the repatriation of grades in perpetuity.

Alderman Bellamy said they were not taking the proposed agreement of the G. T. P. into account at all. He said that that was in the nature of a bluff. "I regard Morse as the prince of bluffers," he said and added that he would ask for anything.

As for the city's chances of recovery in the east end, that was in the hands of the late sale of merely a matter of conjecture.

Alderman Bellamy asked if the council seriously considered that they were protecting the rights of the citizens by assuming any action for damages which might arise through the depreciation caused by the railway closing any streets.

Alderman Griesbach asked Alderman Bellamy what the delegation ought to have done and what the city should do now.

Alderman Bellamy said that the delegation was sent to get a better agreement than the Short-McDougall agreement, and that they should have tried to get the Grand Trunk north of the C. N. R.

Alderman Griesbach replied that they had tried to get the G. T. P. to go north and had failed.

Alderman Bellamy said that the delegation had gotten an agreement which seemed to contain all the vicious features of the McDougall-Short agreement and many others which were not in that agreement. If there was anything that Morse wanted that was not in that agreement he would like to know where in blazes he put it. Alderman Griesbach, he said, referred to the agreement as a compromise, but he failed to see where the compromise came in.

Ald. Griesbach said that the proof that it was a compromise was found by comparing the agreement which the company asked the city to sign with what the city had signed. He asked Alderman Bellamy what he suggested that the delegation should have done and what the council should do now.

Alderman Bellamy said that if the council would give him until Tuesday night to bring in a draft of the agreement which the city should have gotten. So far he had only stated objections.

## EPIDEMIC MAY FOLLOW QUAKE

Valparaiso People Now Fear an Outbreak of Fever.

(Special to the Bulletin)  
Valparaiso, Aug. 24.—With two more earthquake shocks here and at Santiago last night and a heavy rain storm today, people are suffering from fear and inadequate shelter. It is believed that if the rain continues a serious epidemic of fever will follow. As a result of measures taken to preserve order at least 150 robbers have been shot. Bodies are still being taken out of the ruins and about 700 have been buried. Disinfectants are exhausted. A commission appointed to examine the walls left standing will report upon their condition. Sailors from Chilean warships are assisting the bakers ashore in making bread for the homeless. The minister of the interior believes that all walls in the Almendral quarter must be torn down.

## WILL INCREASE REPRESENTATION

Bill for the Purpose Will Be Brought In Next Session.

Ottawa, Aug. 24.—There is little doubt the representation of Alberta and Saskatchewan in the Commons will be raised from five members each to ten each by the census now being taken. The census is expected to show an increase of a hundred thousand in the population of Manitoba, which would entitle that province to an increase of 4 or 5 members. If under the same Act as other provinces Manitoba, however, will have to wait for the decennial count in 1911.

A bill to increase the Alberta and Saskatchewan representation be introduced next session.

It is understood that Thanksgiving Day will be held on the third Thursday in October, which will be on the 18th day of the month.

Martin Ingrubison, a farmer living beyond St. Albert, met catastrophe on the streets of Edmonton to-day. He was driving a team of mules which were frightened at an automobile and ran away, dashing the rig against a telegraph pole at the corner of the Bank of Montreal and smashing it to kindling. Mr. Ingrubison and his daughter were thrown out, but not seriously hurt.

Alderman Griesbach said that it was all right to suggest that the city should have gotten a different agreement, but if he was allowed until Tuesday night to bring in his ideas of the agreement, how would he suggest that the Grand Trunk Pacific should be induced to sign the agreement which he would draw up.

Alderman Bellamy did not answer this difficult question, and Alderman Picard caught the eye of the chair long enough to express himself briefly as unfavorable to the agreement, principally on account of what he considered the monopoly clauses.

The vote was taken, standing, for the agreement. Alderman Griesbach, Latta, Calhoun, Mays and Smith. Against, Alderman Bellamy and Picard.

Without opening up any new business the council adjourned.

A freight train coming north on the Calgary and Edmonton road last night jumped the track 10 miles south of Strathcona, ditching eight cars of an eighteen car train and delaying the express so that the passengers did not reach Strathcona until six o'clock this morning.

No fatalities followed the wreck, but the mix-up is a bad one which will require several hours to clear away. The train broke eight cars from the tail end and everything back of the break except the caboose jumped, the track.

The track was torn up for over 100 yards and cars piled on top of each other or shoved off into the ditch indiscriminately. The regular express, which was late, was following close behind, arrived at the wreck at 1.30 in the morning, where the passengers had to wait until a sub train was run out from Strathcona to bring them in. This morning a train started from Strathcona for the south on schedule time, but will only go as far as the wreck, transferring the passengers to the express lying on the other side. On the return the sub train will bring in the passengers' baggage left over last night.

The cause of the accident is at present uncertain but it seems probable that it was due to a hot box on one of the freight cars. Difficulty was experienced all up the line on account of the hot boxings and from Wetaskiwin to Leduc it took four hours to make the run. The theory is that the boxings set when Ellerslie was reached, skidded the wheels until they jumped the track.

MARCOONS TO

PLAY HERE

Accept Edmonton's Offer for a Five Days' Series Commencing Sept. 6th.

It is on. The big thing is on. Edmonton is to have the grandest series of first class baseball ever exhibited in western Canada. Word was received from the Maroons today accepting Edmonton's offer for a five-day series here on September 6th, 7th, 8th, 10th and 11th.

There will be no discount in this series. Winnipeg stands in the Copper-Northern league and at present is playing the greatest ball ever presented in the minor league. What Edmonton is doing local fans know best.

To those unacquainted with the circumstances it will appear preposterous that Edmonton, a town of 12,000 not in any organized league, should presume to go up against one of the fastest minor league teams in America, but those who know tell you that Edmonton is playing the best organized ball in any country. There will be great things in the fan house for the five days commencing September 6th.

## EDMONTON PLAYS THIS AFTERNOON

Latest Reports From Sect of War State That Everything is Peaceful in the Cow Camp.

Calgary, Aug. 25.—Calgary made it three straight against Wetaskiwin by taking them 8 to 6 in the third game last night. The game was highly exciting, with several sensational spots scattered through, but no personal violence is reported.

The Edmonton team arrived here last night and were met at the train by emissaries of the Monsieigneur Piddler band bearing olive branches and a check marked good. They found the Edmonton boys into a cool and well-kept spot adjacent to a quiet old inn overlooking the switchyards where full and complete expansion of the alleged mysterious and eccentric doings of the Calgary management were indulged in by cowboys and others. At the conclusion of the afternoon and the boys will go onto the pasture prepared to fight cheerfully for the pennant or kill a few umpires with vim and glee.

## THE WEEK'S BUILDING.

Building for the week ending today was small, only \$18,530 worth of permits having been taken out. For the month of August however, the total to date is \$185,140, and for the month will be close to the average. The permits taken out this week were nearly all small, but two very handsome residences are called for, one for Dr. Wallace and the other for Jas. Green. Dr. Wallace's residence is to be built on the corner of Mackay and Third street, overlooking the river, one of the most picturesque spots in the city. It will be of solid brick with a large circular veranda overhanging the hill, and capped by a handsome circular tower or minaret on the corner. It will be, when completed, one of the most handsome residences in the city, work to commence at once.

Mr. Green's house is to be a two-story cottage with basement on the west side of Sixteenth street, between Victoria and Jasper. It will be a handsome addition to west end residences, costing \$14,500.

**TENDERS**  
Tenders are invited for a frame residence to be built on Seventh street. The lowest tender not necessarily accepted. Plans and specifications may be seen at the offices of Johnson & Lines, architects, to whom the tenders must be sent before the 18th of September.

 —J. L. Mills received an order for a G. C. Oxborough, Contactor, Ferro Carrel de Antofagasta, to be sent via Chile.

—S. Edwards, assistant superintendent of the western division of the Canadian Pacific Telegraph company's business was in the city yesterday, having come up from Winnipeg to make arrangements for the installation of the new wires in the company's new Jasper avenue offices.

—An article appeared in these columns a few days since from Maurice Splain of the Pittsburgh post. In the prefix Mr. Splain was mentioned as a member of the Pennsylvania Editorial Association. He was among the Washington correspondents who were brought west by Mr. Vanderhoof.

—The Pacific Live Stock Association of Spokane, Washington, have been registered to allow them to do business in Alberta. The Association insure live stock against death from any cause. W. J. Walker, vice-president, is a brother of G. A. Walker, M.P.P., of Fort Saskatchewan.

Henderson, of the department of agriculture, was in the city yesterday visiting his brother before he leaves for Montreal, where he will enter upon his duties as educational secretary of the Y. M. C. A. Mr. Henderson has been Presbyterian missionary at Lamont during the summer.

B. Lanton, the Provincial game warden, has made another haul. On Friday he captured some deer heads in the possession of Boode Bros., taxidermists in Lacombe. On the 23rd he was out at Stettler and got three different parties who were out shooting ducks too early. He entered a complaint against them and one was fined. The others were let off on suspended sentence.

**MISS OLIVIA DAHL.**

Olivia Dahl entertained a small audience at the First Baptist church last night. It would be superfluous to say that her singing is good as she is recognized as a singer by the foremost critics of the day, but to those who know no music except such as appears to the sense and not to the education, Miss Dahl's singing is something new. She is a soloist par excellence, without frills or agony; no extravagant passages such as are generally resorted to by foot-light specialists. The lady has a remarkable command of her low and soft notes and she uses them to bring in some weird but very fine passages in her Norwegian folk songs. Her voice is not high-pitched, but of a fine rich tone which suits the Norwegian pronunciation to a nicety. Miss Dahl sings again tonight and her entertainment should not be missed by music-lovers of the city.

Miss Gina Smith's performance as pianist was a revelation of faultless interpretation of the modern masters.

Miss Ella Perkins, B.A., daughter of Mr. Fred Perkins, of this city, left yesterday to resume her duties in the Roberts high school, Vancouver.

Mr. A. H. Bennett and son are travelling near Lamonth. They will return next week and Mrs. Bennett will recommence her singing class on September 3rd.

**THE ROSCIANS.**

The Roscians will close their week's engagement at the Thistle this evening with Geriffo-Geriffo, an operatic story of bloodthirsty pirates and two beautiful twin maidens whose identity gets constantly mixed. The piece has enough jingle about it to make it worth while as a musical production and it has enough human interest about it to make it worth while as a pastime.

Last night The Roscians put on their best piece, "Martha," to the largest audience of their engagement and to say that they pleased their patrons is putting it mildly.

The Roscians will undoubtedly have a good house tonight, rounding out a week as pleasing to their patrons as to themselves.

**TO ENLARGE GRACE CHURCH.**

The official board of the Grace Methodist church, at its regular meeting decided to enlarge the Suberland street edifice to almost double its capacity by adding on to the west side. The plans are now being arranged for by the board and details will be available in a day or two.

The list of appeals will be found posted on the door of the assessor's chamber today, in pursuance with the law. Definite figures in the assessment are not available until the court of revision concludes its labors.

## ENCOURAGE THE MANUFACTURER.

The approaching visit of the Canadian Manufacturers Association to our city will afford an opportunity to initiate a campaign to advertise Edmonton's advantages as a manufacturing centre. While these advantages have been long realized by the citizens of Edmonton they have not been advertised abroad probably as persistently as they deserved.

In common with other western cities the attention of Edmonton has been directed more particularly to the prospective settler. It was both natural and proper that this should be so. Agriculture in its varied branches is and most continue to be the foundation of prosperity in the west and the first problem of the country was to get settlers on the uncultivated land. This problem has however now been in a measure solved. There is already a very large farming population in Alberta and this population is being augmented annually by thousands of newcomers. In consequence it is perhaps not so insistent as formerly to continue appeals directed specially toward this class of immigration.

This change in the situation calls not for the abandonment of the city's immigration effort, but for a change in the nature and objective of this effort. The farmers are now here in large numbers, and are coming in still larger numbers. The city may well rely upon the continuance of this immigration movement even to the extent of relaxing its efforts to secure more farmers in an endeavor to make better the conditions of those who are already here. The interests of the city and country are inseparable and co-ordinate and the permanent progress of the city depends on the number and the prosperity of the farmers.

Edmonton stands to gain directly very largely from the establishment of manufacturing concerns, but she stands to gain still more largely as the indirect result of such establishments. A factory which employs one hundred hands contributes the wages of one hundred employees directly to the trade of the city, but it should distribute an even greater amount among the thousands of farmers or producers who supply the raw material which the factory utilizes. This money is by no means lost to the city, but returns no less surely to save it the volume of its trade than to the wages of the employees.

The manufacturers from which Edmonton stands to gain most are those which will utilize the raw material produced in the district. A factory working on imported raw material is of direct benefit only. It contributes only to the betterment of the city the wages paid its employees and the expenses incidental to its operation.

It collects from the tributary district the price of its finished product and returns to the community only the cost of changing this into the finished article. Such concerns are of far less value to the community than those which turn into the channels of local trade both the expense of operation and the cost of raw material. In endeavoring to secure such industries the city would be both working for its own direct benefit and for the betterment of the country upon which the city depends for existence and development.

## IF IT BUT KNEW

Under the heading of "Provincial Money Grants," the Journal makes an attack on Attorney General Cross. As usual it speaks without knowledge and in utter disregard of the facts. Complaint is made that money is not being expended on the main trails coming into Edmonton. A casual inquiry by the Journal would have elicited the information that this year \$1,114.19 has been expended on the Fort Saskatchewan trail, \$1,205.00 on the Stony Plain trail and \$463.53 on the St. Albert trail and that if some of the city streets were in as good condition as these trails our citizens would not have to go out of the city for a pleasant drive.

Regarding the Dowler Hill proposition the question of location of the road has been a contentious one, but the Minister of Public Works has succeeded in getting the people who use that road to decide upon a location and the right-of-way is now being acquired and the road will be built at once.

Just how Attorney General Cross is to blame for the Dowler Hill road which is in Mr. Rutherford's constituency is not very clear, to any one but a newspaper that is anxious to make party capital out of fiction when the truth will not answer.

Of course the Journal admits that the Parliament buildings are to be built here but claims that this is an undertaking that is "Provincial" in its bearing. If the Journal only knew that Mr. Cross is a member of the "Provincial" Government and not of the city council it would only expect him to deal with matters that are "provincial" in their bearings and would not call upon him to grade the city streets out of the provincial revenues.

The expenditure of public money in this city during the life of the present government will be greater than in any other part of the province. Mr. Cross has discharged his public duties to his constituency and to the province in a most satisfactory and capable manner.

The Journal talks knowingly of feeding upon the "corn" and "husks" doubtless with a vivid recollection of the days of Tory graft and favoritism, which thanks be to the people are no more.

## THE SINCEREST FLATTERY.

The Envy of the Man who Knows  
Your Whole History.

Pity the curious man as much as you will; he needs it. With what a greivous feeling the Man of Envy speaks of your success, disparaging your ability the while, for he knew you when you were young, knows all your history, in fact. Envy never has any praise for others. But envy is really the sincerest flattery.

The hammering of the Semi-ready tailoring has been the favorite pastime of many envious people. That which one can surpass, one does not envy, but that which is beyond one's power to approach either inspires to effort or condemnation. The hatred of the envious one is praise, and the Semi-ready tailored garments at \$15 has awakened people of praise. The Semi-ready Company takes some pride in their creations and their achievements and they are broad enough to welcome those who strive to equal their tailoring.

## Wanted a Canning Factory in Edmonton

The present is an opportune time for the establishment of the Western Canadian Canning Industry. The recent revelations in the canned meat industries of the American cities have discredited American goods in the British market, and the British consumer

The announcement of the G. T. P.'s route through or around the city having been with-held so long should point out that we have no absolute hold on the policy of the directors of that railway company. And while the aldermen who have been elected to transact the business for the citizens of Edmonton may consider that the bargain which they now wish to go back on, may be too favorable to the G.T.P. Ry. Co., still they should also remember that they sent down delegates with full power to act, deal with the of-

bound to give it a pre-eminent position as a distributing point. The extension of two lines of railway to the Pacific Coast, coupled with the growing demand for Canadian products in the Orient is destined to give Edmonton a distinct advantage over every other city in the west.

## CRICKET

A good club game was played on Thursday and but for the absence of others complete sides would have been enjoyed. The weather was agreeable and most of the players showed good form with the bat. The wicket played true and the outfield is now in good order. The side chosen by the secretary won by 22 runs, and had four wickets to fall when the innings was declared. For them Wolsey, Jr. batted well and Barker, Reeves and Slocock made most runs. For the losers, who were captained by A. H. Jones, Hopkins, Richardson, Adams, and Aldridge were credited with double figures.

### Tolfield

Dr. McIsaac has moved his drug  
store into town, having secured a  
good site from J. O. Letourneau.

Mr. Wm. Woods has completed a  
new stable which adds greatly to the  
appearance of one of the choicest  
farms in our neighborhood.

Mr. and Mrs. Norquay paid Gofield  
a short visit.

Mrs. McCauley and family have  
gone into town. Mrs. McCauley will  
be missed in musical and social circles.  
Mrs. J. Hopgood returns to B. C.  
this week. Mrs. Hopgood has been  
spending a few weeks with Mr. and  
Mrs. Hopgood of Gofield East.

Mrs. and Miss Walker of Agricola  
are visiting Mrs. Laidman.

Mrs. McMullen, who has been very  
ill is very much improved. She has been  
removed to the home of Mrs. C. C.  
Harriman. Under the management  
of Dr. McKinnon and the care of kind  
neighbors we trust recovery will be  
quick and complete.

Semi-ready welcomes honest  
competition—even though such  
competition is but passing  
through its experimental mis-  
takes.

It's the spurious kind of  
competition our customers  
have to guard against—that  
of the old-time ready-made  
clothing who thinks that all he  
has to do is to select a fancy  
name and advertise his old  
product as equal to "Semi-  
ready." This is the kind of  
fraud that hurts—it hurts the  
customer most, and sends him  
back to the last century  
method of buying clothes from  
the cloth roll. In this way it  
does not help us to prove the  
fact that the many who, to-day,  
wants to be really well-dressed  
wear Semi-ready clothes.

Semi-ready tailoring is bet-  
ter than custom tailoring. We  
cannot persuade all our cus-  
tomers in Canada to see our  
shops and learn the reason  
why, but we give a written  
guarantee with every suit of  
Semi-ready clothes that this  
is so.

A \$15 Semi-ready Top Coat is real  
sterling value—and it looks dis-  
tinguished always.

**That big feed door—**  
Easy to feed this right furnace, —rough wood, big coal, anything it ought to burn. —door's made extra size for just such cheap fuel. Ash pit is easy to clean out, won't get choked every few hours—always ample draft space under grates.

Doors made to fit tight—gas and dust proof. Made, too, with hinges that won't sag, latches that won't break. —doors made slam-proof, almost fool-proof. Everything about this right furnace is common sense and experience—built specially to suit Northwest needs. You know no furnace costs so little to run. That's because combustion is perfect,—the grate bars assure that. Heats up quick, because fire travel is all one way. Heats most, because fire-walls are corrugated.

THE ash-pit of the Oxford Hot Water Boiler high base gives great depth for accumulated ashes, and, when ordered, is fitted with an ash sifter which separates the good coal from the dead ashes, thus, without any extra trouble, saving much fuel that is ordinarily thrown away.

**Oxford Hot Water Boiler**  
The diameter of the fire-pot is greater at the top than at the bottom, preventing an accumulation of ashes around the most active part of the boiler.

The triangular revolving grate is hollow, allowing immense air space without permitting live coals to drop through. Dead ashes, clinkers, etc., are sharply cut off by a turn of the grate. The whole contents of the grate are dumped by a few extra turns.

We would like to tell you more about the Oxford Hot Water Boiler. Will you write for our book? It's free.

### FLETCHER MUSIC METHOD

Miss Ruth Ritchie, teacher of the Fletcher Music Method will give a demonstration of this famous system, in Edmonton early in Sept. with a view to opening classes there, date given later on.

This method is especially for the young whose struggles with the old system of teaching music, are only too well known to all mothers and teachers.

For those not knowing anything of this method will find an explanation in the following taken from the Musical Courier of July, 1906: "The Fletcher Musical Association was formed in 1898 for the purpose of developing and protecting a system for teaching music to children in an absolutely logical and yet enjoyable way, thus aiming to rob music of its terrors and drudgery and yet accomplish broader results than with the old fashioned method of instruction."

The teachers of the Fletcher Music Method are not only required to learn how to teach the method but are also obliged to actually do the things themselves, in order that they may be in an absolute position to impart their knowledge to children in a Fletcher Method.

Evelyn Fletcher-Copp is the originator of the Fletcher Music Method for children and her original patented apparatus is a combination of unusually interesting and instructive devices. The musical scale ladder, the wooden note groups, dummy piano keyboard with every black and white key properly named according to its staff position and the first long staff, tapes stretched upon a table are only a few of the clever devices incorporated in the apparatus of the Fletcher Music Method. Interesting musical games are played with the ladder, note blocks, etc., so that the children learn musical rudiments by direct appeal to the child's fancy, and not by the tedious and discouraging hours of drudgery at the piano that the old fashioned method of teaching music to children required. Many an otherwise bright pupil has been discouraged at the start by the old line, uninteresting system of teaching, every dry footstep which is happily eliminated by the Fletcher Music Method. This system not only teaches a child music, but also to perform on the piano, besides modulation and composition. When Fletcher Music Method children enter the world of melody later on they do so with a fundamental training of rare value, and they are fully equipped for the profession."
